## GARDENING TIPS

### February

Now is the time to plant potatoes, garlic, onions, rhubarb, and asparagus. Finish pruning roses, shrubs and trees. After pruning, be sure to clean your tools. Prune and cut back perennials and ornamental grasses, and prune lavender back to emerging new growth for best spike production this coming summer. Shop now for citrus trees. If starting tomatoes from seed, now is the time to start them indoors. Divide perennials such as daylily and yarrow, and re-plant them in bare spots around your garden. See our [Year-round Vegetable Planting Schedules for San Mateo and San Francisco Counties](#) for what can be grown in your area.

### UC California Backyard Orchard

Learn about the winter dormant season, spring bloom season, summer growing season, and fall harvest season for your fruit and nut trees at the [UC California Backyard Orchard website](#).

### UCANR Catalog

For selecting fruit, nut, and berry crops for home gardens in San Mateo and San Francisco Counties, download a catalog with handy tables to identify your climate zone, and then select varieties best suited for success in your area at the [UCANR website](#).

### How to Prune a Hybrid Tea Rose

Learn pruning tips and how to easily prune a hybrid tea rose from a certified UC Master Gardener. [View Video](#).

## FREE CLASSES & CLINICS

### Prudent Winter Pruning

Veterans Memorial Senior Center  
1455 Madison Avenue, Gold Star Room  
Redwood City, CA  
February 3, 2018, 10:00am-12:00pm

Learn all about winter pruning for deciduous fruit trees, grapes, cane berries and roses; why we prune, how pruning maximizes tree health and fruit production; and how to identify dead, damaged and dying wood. The class will cover pruning techniques, as well as timing of which trees to prune and when. [Registration](#) required.

### Drip Irrigation Made Easy

Veterans Memorial Senior Center  
1455 Madison Avenue, Gold Star Room  
Redwood City, CA  
March 3, 2018, 10:00am-12:00pm

Learn the basics you need to get your drip irrigation system up and running, including how much water plants need and where they need it, pros and cons of different irrigation systems, how to convert your existing sprinkler system to drip, and more. [Registration](#) required.

### San Mateo Arboretum Plant Clinic

Arboretum Pump House  
101 9th Avenue  
San Mateo, CA  
February 4, 2018, 11:30am-1:00pm

From a table stocked with reference materials, we help members of the public with their plant and gardening questions. When we are unable to answer a question we submit it to the UC Master Gardener Helpline with client contact information. Plant clinics are held on the first Sunday of the month from February through November. If that date falls on a holiday weekend, it is held on the second Sunday. No registration necessary.

### Creating a Sacred Garden Space

San Francisco Public Library  
351 9th Avenue  
San Francisco, CA  
February 24, 1:00pm-2:30pm

The human need to create a quiet, peaceful place in the garden for contemplation, reflection, writing or meditation is as old as the garden itself. Learn how to locate the ideal spot(s) in your garden to create a sacred space, and then how to enhance that special area by adding plantings and other elements and symbols that will appeal to all the senses. There is a paid parking lot on 9th Avenue which is first come, first serve and additional street parking. Allow extra time for parking. No registration required.

### Vetebrate Pest Control in the Garden Part 1

Lyngso Garden Materials, Inc.  
345 Shoreway Road  
San Carlos, CA  
February 17, 10:00am-12:00pm

If critters are destroying your garden and gobbling up the fruits of your labor, then this is the class for you. You will learn many useful non-poisonous abatement techniques to protect your garden. Topics will include trapping, creating barriers, and deterrents. Vertebrates to be covered are deer, gophers, voles and mdes.
